## DIRECTORY

The directory(with the ability to store up to 10 numbers) can be used as an additional memory or as a phone book to store your important numbers. While reading a message, you can imprint a copy of the message into the directory. To do so press the "SELECT" button until a  appears, and press the "MODE" button to imprint a copy into your directory (Please note that the directory can only store 12 digits per memory, and is unable to store alpha-numeric messages). To access your memory, press the "SELECT" button until "DIRECTORY" appears on the screen and press "MODE" button. Use the "READ" button to read through all your directory message. Messages stored in the directory can also be lock/unlock and individually erased.

## FM RADIO OPERATION FEATURES

(※ FM Only)

To utilize your FM radio, simply insert the earphones into the slot provided. Once the red light is illuminated you can start tuning the radio to desired station. The radio tuner has auto scan capabilities; therefore it will automatically search for any available station. Unplugging your earphone will automatically turn off your radio.

The FM radio function and the paging function are operated on 2 separate bandwidths; therefore utilizing one will not cause interference to the other.

Please note using the FM radio will dramatically decrease battery life; therefore for best paging reception please always change your battery whenever the low-battery indicator appears.

**CALL Phrase Message:** When your friend pages you, they can add "00" -- "#3" (any choice), to select Phrase message.
